

COMING ACROSS

By Ezra Weed
of the Vigilantes
"Can you lend me fifty dollars?" says my Uncle Sam to me.
"Well, Uncle, I don't know," I says, "I'll have to go and see." "You'll have to go and see?" he says, sarcastical and dry.
And I didn't feel too cheerful when I looked him in the eye.
"Now, son, you listen here," he says, "I'll give it to you straight.
I know,—you're in a hurry. Better let the hurry wait.
"There's things I'm going to tell you,—or try to anyhow.
If you never done much thinkin', you better do some now.
"I brought you up in freedom. I allowed you'd have the run of the fairest finest country that ever got the Sun.
I gave you school and readin' as much as you could learn,
And never asked an hour of your service in return.
"You had it soft and easy you didn't have to fight;
And you looked on peace and plenty as if they were your right.
"I took a chance to raise you. I said, 'he won't forget.
Some day he'll do me credit.' And this is what I get.
"I ask a little favor that you can do for me.—
So small I hate to ask it—and, you've got to go and see!
"I've strove with men and angles for the honor of our name,—
To make it stand for somethin', and keep it clean of shame.
I always planned to give you a country and a flag.
You could call as good as any and you wouldn't have to brag.
"If you figure so to keep them, I only know one plan.
That'll stand all kinds of acid, and that's—to be a man.
"So you better think it over and show what you can do.
I can use about a billion. So long.
"Now I guess unless I'm willing to be charged up as a loss
And thrown into the discard, I'll have to come across.

GREAT TEMPERANCE
ORATOR AT TRINITY
METHODIST CHURCH

Next Sunday morning the Rev. Dr. Clarence True Wilson will speak at the Trinity Methodist Episcopal church. Dr. Wilson is one of the most interesting characters on the American platform today. There has not been a campaign for prohibition any where in the country in the last ten years that this speaker's voice has not sounded the call for temperance reform. He has had thrilling experiences in his automobile tours in western states campaigning for prohibition. With his executive offices of the Board of Temperance, Prohibition and Public Morals located at Washington, D. C., Dr. Wilson has intimate relations with the leaders of the prohibition movement in the national capital, and knows every step in the progress of the reform movement.
The friends of the temperance movement in Clearfield and vicinity have a chance to hear a great message at Trinity next Sunday morning. Frank M. Waring of Tyrone, will sing.
At the evening service the Rev. A. L. Holworth D. D., will preach the sermon. Dr. Holworth represents the Educational Jubilee Commission and he will have a great message for everyone interested in the development of the young life of our nation through Christian education. Music will be furnished by the choir and the male chorus.

Mrs. Showers had been an invalid for the past couple of years and her death was not unexpected. Proper obituary notice and time of funeral will be published Monday.

William Bigler was called to Atlantic City last evening on account of the serious illness of his father, H. F. Bigler. Mr. and Mrs. H. F. Bigler went to Atlantic City to attend the water meeting and shortly after arriving there Mr. Bigler was taken sick. His illness failed to respond to medical treatment and he has been growing gradually worse and his friends are greatly alarmed over his condition. As soon as he is able to stand the trip he will be brought home.

Dear Ones at Home:
I am in charge of quarters on boat today and three officers just inspected the quarters before I began writing. This transport was an interned German liner of North German Lloyd line. There are two regiments with us, the 8th and 23rd, ours. There are 6 transports carrying them all.
We are now in Bay of Biscay and the water is very rough. We expect to land this afternoon, so we are perfectly safe, we were met by an American convoy to take us through the bay. There are four destroyers. When we mail these letters, we have to leave them open.
I have not even had a head ache since I have been on the boat. Others have been terribly sick. This is the 12th day at sea so you see we have been riding the waves some. Our platoon is having inspection before they leave the boat. Roy Smeal is the only one I know from home, on the boat.
We certainly have a fine bunch of officers. I was talking with one a few hours last night as we looked over the water looking for submarines, but did not see any. He is from New York City. He is a captain. I have a fine squad, all fairly well educated, one a college man of Utah. He joined this regiment in Texas this spring.
Will close to write to Herman. Your loving son and brother.

Dear Mother and All:
I have got a little time now and will write you a letter. It is a very nice place and there are a lot of us here.
When I left father and brother on Saturday I did not get here until Sunday morning about 3 o'clock. I had some ride. Gee but I got tired riding.
On Sunday we all got a shot in the arm and about 5 of them fainted and the rest was all to sick to die. I was about gone once and I laid down right away but mother don't worry about me for I am all right. I get all I can eat and everything I want.
I suppose you know where I am, in Columbus, Ohio. I don't know when I will leave here. There were about 6 left here while I was writing this letter and I might go tonight, so don't write until I see what I will do.
There are all nice fellows here.
I did not think I would get up town tonight but I did. This is my first night up town so I got time to write a little more to you.
I had some time tonight. I am feeling fine and like it here.
Well I will close and get to work now and mother dear, don't worry for I am all right. Am happy and well.

My Dear Mr. Minds:
Just a short note tonight that you may know the selected men from Division No. 3 which left for Camp Lee on the third instant arrived here safely and all feeling fine. We reached here at 6:30 the following morning and was well taken care of throughout the entire trip and will add that we are receiving the best of care since here.
All the men are in the same branch of service, which is the Motor section of Ammunition Trains, and are all in Companies 1, 2, 3, and 4, which have adjoining Barracks.
The rations are very good and all have plenty to eat. We have had considerable drill work and the men are fast getting into shape for the bigger work later on.
You would surely enjoy a visit here as this is a wonderful camp and everything moves along with the utmost precision. 200 men are fed in one-half hour in our barracks, and earlier in the life of the camp they erected a barracks complete to take

The days are warm and nights are quite cool. We are called at 5:45 A. M. and have breakfast at 6:30, work beginning at 7:30. A few men are troubled with colds at present, but will soon get straightened out after they are fully acclimated.

At present I am acting 1st Sergeant of my Company and expect to receive my warrant in a few days. This position takes a great deal of my time and to date have been unable to get around the camp to see any of our friends but hope to before long.

The lunches handed us by the Red Cross were greatly appreciated and fully enjoyed by all as it is a long ride down here and men get hungry. I wish you would thank these people for the interest they have taken in providing for the men coming here and also wish to thank you, in behalf of all the men in our quota, for your very kind financial assistance at the time of our departure and trust that I may see you before many months and personally explain the life here.

My very best regards to Mr. Rumberger and trust you are both enjoying the best of health.

Ward Liner Antilla After Conveying
Soldiers To France Meets Disaster
At Hands Of German Pirates

SEVENTY MEN SUPPOSED TO HAVE DIED

By Carl D. Groat
Germany is centering a large part of attention of her U-boats in "getting" American transports. That conviction was borne in on Navy men today after the first torpedoing of an American transport—the Antilla, which was sunk with a loss of seventy lives. That the U-boat got the Morgan liner, however, was largely a matter of luck. No one saw that submarine or the torpedo. The American people will now know what may be expected from the Germans. The utmost precaution was taken by the transport which was under convoy, and it was only luck on the part of the submarine. The U-boat was probably submerged and the commander was greatly surprised when he heard the approach of a steamer and was able to get the range and deliver the torpedo square. If the periscope of the submarine had been visible the convoy would have surely seen it. A point which authorities today dwell upon was that the disaster had no military significance. The fact that American military men lost their lives may serve to incite the war spirit here. If it does this, then the lives of the soldiers and sailors which were lost will not have been sacrificed in vain, it was held. The Navy Department points out that an occurrence like this will happen once in a while but with the convoy and armament the disasters will be greatly reduced.

DEERTER BOUNDED UP

Val Pavilek, of Curwensville, who was notified of his liability under the draft, was examined and bound to appear here September 18th to leave with the second contingent which left on the 19th but failed to appear, was arrested by Chief of Police Clark of Curwensville yesterday and lodged in the Clearfield jail this morning.

Pavilek left Curwensville the day before he should have reported to Clearfield and went to Pittsburgh. "excuse is that he went there to see a sick brother. He returned to Curwensville Thursday evening and was picked up by the Chief of Police who was on the lookout for him.
This is the man who has been accused of being a spy. It has been proven that he was in the Austrian army for three and a half years. He speaks good English and during the past several months has done a large amount of traveling about the country on a motor cycle always alone.
He will be delivered to Army headquarters at Philadelphia within a few days where he will be tried by military court martial for desertion.

EDITORIAL
PATRIOTISM AND THE MINER

In an exchange we notice an article with the headline, "Lack of Patriotism Among Miners Matter of National Importance," implying that the miners are not patriotic. The basis of this statement is the action of the County Public Safety Committee with regard to idlers and non-workers on account of booze. Of course it must be conceded that the miner who does not work because he is or has been drinking is unpatriotic because in time of war he, as well as every other citizen of this nation, should keep himself fit for work every day but the fact remains that every industry, not alone mining, is suffering from lack of help because workers are loafing in bar rooms instead of turning out materials. The action of the Committee must not be construed as a criticism of any particular class of labor and what they plainly struck at was the contributing cause of the idleness—booze.

The patriotism of the miner is to a large measure above reproach. He cannot be censured because he is fighting for more money all the time because that is exactly what every other man in this country is doing. He can be criticized only when he ceases to work and when, on some minor pretext he throws a mine idle for a day or more at a time.

There have been instances recently where the miners were unfair to their employers and to the best interests of their country. It has several times been reported to us that miners have failed to start work in the morning because there were no cars under the tippie even though the train bearing cars for the days work was in sight. We choose to believe that this has been due to bad leadership among the miners locally or possibly because the miners, as a body, have not been acquainted with the urgent needs of their country in the way of fuel.

The best indication we have of the patriotism of the miner was the way he came across in the last Liberty Loan Campaign. We do not believe that any other class of laborers can exceed their performance on that occasion.

In this Liberty Bond campaign we believe the miner will be there with the goods. We will be disappointed if he is not. He is making good money. His heart is in the right place. We know how he takes care of his "buddy" when sickness or accident overtakes him.

At this time when so many of his "buddies" have answered the call of Uncle Sam we feel safe in predicting that he will handsomely take care of those fellows in a Liberty Bond manner before the campaign closes on October 27th.

INTERNATIONAL
SUNDAY SCHOOL
LESSON

(By REV. R. D. PITZVATER, D. D.,
Pastor, Methodist Episcopal Church, in the Moody
Bible Institute of Chicago,
Editor of the International Sunday School Union)

LESSON FOR OCTOBER 21

THE TEMPLE REBUILT AND DEDICATED.

LESSON TEXT—Ezra 3:8-13; 6:14-18.
GOLDEN TEXT—Enter into his gates with thanksgiving, and into his courts with praise.—Psalms 100:4.

The remnant which returned had now become settled in their new homes. As it would be a considerable time before the temple could be rebuilt, arrangement was made for the religious life as early as possible, as religion was the very heart of the nation's life. They first set up the altar of the God of Israel (3:1-3) and offered burnt offerings thereon. They next revived the annual festivals (3:4-7) which had a powerful, unifying influence upon them.

I. The Appointment of Officers to Set Forward the Work of the Lord's House (v. 8, 9). Overseers were needed to direct this great work. Rubbing needed to be cleared away so the building operations could begin; timber needed to be cut in the Lebanon forests and floated down to Joppa; stones needed to be cut from the quarries; intelligent and consecrated men were needed to direct this work, as it was needful that it be done with the utmost expedition. The Lord's house demands the most systematic adjustment of its labors. Mere zeal will not make up for lack of intelligence.

II. The Foundation of the Temple Laid (3:10-13). This was done amid great rejoicing. The consciousness that the Lord's house was taking shape, even though the mere foundations could be seen, provoked great enthusiasm on the part of the people. Musicians were appointed to furnish music while the work was being done. Under the influence of music men will do better work, armies will march and fight better when bands are playing. While there was great joy, there was also, mingled sorrow. This was on the part of the elders who had seen the former temple. The meanness of the present temple in comparison with Solomon's temple caused their praise to be drowned with their sorrow. These people belonged to that class who think that nothing now is so good as in the former days. So completely were these voices commingled that the people could not discern the one from the other.

III. The Building of the Temple Delayed by Opposition. (Chapters 4 and 5). For a time matters went smoothly with them, but as soon as the work had taken such shape as to show that there was some prospect of success, the half-heathen Samaritans began to oppose them. No vital work of God will be allowed to go on without opposition. Satan resents and bitterly opposes all inroads upon his kingdom. These Samaritans sought to frustrate this work of God by:

(1) An Alliance With the Jews (4:2, 3). They wanted to bring the work in harmony with their own religious practices, as God's pure worship would be a constant rebuke to them. This is ever the way of the world, to seek to effect a compromise with God's children; but God's call is separation. "Come out from among them" (2 Cor. 6:14-18). Nothing so weakens God's cause as worldly alliance and compromise. There is but one answer to be given to such an offer of compromise. "Ye have nothing to do with us in building a house unto our God. We are in the world, but not of the world."

(2) Weakening the Hands of the People (4:4). Doubtless this included the withdrawal of supplies, the spreading of dissension among the workmen, and the employment of counselors against them.

(3) Letters of Accusation to the Persian King (4:6, 7). So severe was this opposition that the building was delayed for a term of years. These counselors succeeded in creating doubt as to whether Cyrus had ever issued a decree for their return. This wicked opposition resulted in the undoing of the opposers, for search was made and a copy was found. Darius confirmed this by his own decree, and directed that aid be given from the royal taxes so that the house of God might be built.

IV. The Temple Completed and Dedicated (6:14-18). The Prophets Haggai and Zechariah now appear, and by warnings, exhortations and entreaties stir up the people so that the work goes forward to a successful completion. Without their aid probably the work would never have been completed. Human nature at times needs to be cheered and urged forward. These prophets did not themselves work in the building of the walls, yet their work was of even greater importance. It is generally found that this is so with the religious leaders today. The words of cheer and encouragement of the Christian minister are needed daily for those who labor in the building of the Lord's house. Were it not for them many would give up the struggle. When the building was finished it was dedicated to God with great joy. This was possible because they had built and finished their task according to the commandment of the God of Israel. The service of dedication was much after the order of that of Solomon's temple, only on a less magnificent scale.

The San Francisco and Los Angeles teams are waging a merry battle for the Pacific Coast league pennant. The league season closes next week.

MAKE MORE DYE THAN WE CAN USE
Washington, Oct. 19—America's latest infant industry—dye stuff—calls lustily for more trade in foreign lands the Commerce department announced today. The American dye industry big enough to supply virtually all American trade is now exporting on a large scale. When war broke out in 1914 our dye supply was cut off from Germany, and the United States was apparently against insurmountable difficulties. Many of the German dyestuff secrets are now known and many substitutes have been made.

Mr. Miner!

Your "Buddy" has left the face, his carbide lamp is rusting in his house and you no longer hear his cheerful "hello" as he comes up the Heading in the morning.

Your "Buddy" left with your best wishes. When he said "Good Bye" you clasped his hand and wished him well.

When he left he thought that you would see him through.

HE IS CALLING ON YOU NOW

To make good your word. Are you going to disappoint him.

From Pershing's Boys and the Training Camps the call comes: "We want more guns, more ammunition and more food." Give them a lift.

Stand by your "Buddy". Help him out. Give him tools, a full pail and see how soon he will put in a shot that will blast the Kaiser's hope of owning the world.

Bore a hole in your Pay Envelope. Your "Buddy" will fire the Shot.

Wesley Norris Talks to Voters

To the Voters of Clearfield County.
Gentlemen:—

As a Candidate the second time for
the office of Sheriff of Clearfield Coun-
ty, having incurred much expense
and considering my advanced age and
that this is my last chance for elec-
tion, I appeal most earnestly and
anxiously for your votes at the com-
ing November election. I feel that
aside from these claims I deserve
your favorable consideration because
as a common citizen I have always
favored the laboring classes of which
I am one, and it elected I stand pledg-
ed to favor every laboring man to the
utmost of my ability, and without
asking his politics. I have always
tried to be active in helping to build
up the town and county. I am a na-
tive of Pike township and belong to
a large family of heavy tax payers in
Clearfield County and our connection
is one of the largest in the County.

I feel that as I secured my nomi-
nation honorably and fairly, and
largely upon my claims as the second
highest man four years ago, I can
honestly appeal to the voters to help
me now as this is my last chance.
I plead with every voter who knows
me to use their utmost influence to
get every friendly voter to the polls
on election day and to use your best
influence in my behalf with all the
voters in Clearfield County.

Yours very truly,
W. F. NORRIS.

COMING ACROSS

By Ezra Weed
of the Vigilantes
"Can you lend me fifty dollars?" says my Uncle Sam to me.
"Well, Uncle, I don't know," I says, "I'll have to go and see." "You'll have to go and see?" he says, sarcastical and dry.
And I didn't feel too cheerful when I looked him in the eye.
"Now, son, you listen here," he says, "I'll give it to you straight.
I know,—you're in a hurry. Better let the hurry wait.
"There's things I'm going to tell you,—or try to anyhow.
If you never done much thinkin', you better do some now.
"I brought you up in freedom. I allowed you'd have the run of the fairest finest country that ever got the Sun.
I gave you school and readin' as much as you could learn,
And never asked an hour of your service in return.
"You had it soft and easy you didn't have to fight;
And you looked on peace and plenty as if they were your right.
"I took a chance to raise you. I said, 'he won't forget.
Some day he'll do me credit.' And this is what I get.
"I ask a little favor that you can do for me.—
So small I hate to ask it—and, you've got to go and see!
"I've strove with men and angles for the honor of our name,—
To make it stand for somethin', and keep it clean of shame.
I always planned to give you a country and a flag.
You could call as good as any and you wouldn't have to brag.
"If you figure so to keep them, I only know one plan.
That'll stand all kinds of acid, and that's—to be a man.
"So you better think it over and show what you can do.
I can use about a billion. So long.
"Now I guess unless I'm willing to be charged up as a loss
And thrown into the discard, I'll have to come across.

GREAT TEMPERANCE
ORATOR AT TRINITY
METHODIST CHURCH

Next Sunday morning the Rev. Dr. Clarence True Wilson will speak at the Trinity Methodist Episcopal church. Dr. Wilson is one of the most interesting characters on the American platform today. There has not been a campaign for prohibition any where in the country in the last ten years that this speaker's voice has not sounded the call for temperance reform. He has had thrilling experiences in his automobile tours in western states campaigning for prohibition. With his executive offices of the Board of Temperance, Prohibition and Public Morals located at Washington, D. C., Dr. Wilson has intimate relations with the leaders of the prohibition movement in the national capital, and knows every step in the progress of the reform movement.
The friends of the temperance movement in Clearfield and vicinity have a chance to hear a great message at Trinity next Sunday morning. Frank M. Waring of Tyrone, will sing.
At the evening service the Rev. A. L. Holworth D. D., will preach the sermon. Dr. Holworth represents the Educational Jubilee Commission and he will have a great message for everyone interested in the development of the young life of our nation through Christian education. Music will be furnished by the choir and the male chorus.

September 19 1917
Dear Ones at Home:
I am in charge of quarters on boat today and three officers just inspected the quarters before I began writing. This transport was an interned German liner of North German Lloyd line. There are two regiments with us, the 8th and 23rd, ours. There are 6 transports carrying them all.
We are now in Bay of Biscay and the water is very rough. We expect to land this afternoon, so we are perfectly safe, we were met by an American convoy to take us through the bay. There are four destroyers. When we mail these letters, we have to leave them open.
I have not even had a head ache since I have been on the boat. Others have been terribly sick. This is the 12th day at sea so you see we have been riding the waves some. Our platoon is having inspection before they leave the boat. Roy Smeal is the only one I know from home, on the boat.
We certainly have a fine bunch of officers. I was talking with one a few hours last night as we looked over the water looking for submarines, but did not see any. He is from New York City. He is a captain. I have a fine squad, all fairly well educated, one a college man of Utah. He joined this regiment in Texas this spring.
Will close to write to Herman. Your loving son and brother.

Dear Mother and All:
I have got a little time now and will write you a letter. It is a very nice place and there are a lot of us here.
When I left father and brother on Saturday I did not get here until Sunday morning about 3 o'clock. I had some ride. Gee but I got tired riding.
On Sunday we all got a shot in the arm and about 5 of them fainted and the rest was all to sick to die. I was about gone once and I laid down right away but mother don't worry about me for I am all right. I get all I can eat and everything I want.
I suppose you know where I am, in Columbus, Ohio. I don't know when I will leave here. There were about 6 left here while I was writing this letter and I might go tonight, so don't write until I see what I will do.
There are all nice fellows here.
I did not think I would get up town tonight but I did. This is my first night up town so I got time to write a little more to you.
I had some time tonight. I am feeling fine and like it here.
Well I will close and get to work now and mother dear, don't worry for I am all right. Am happy and well.

My Dear Mr. Minds:
Just a short note tonight that you may know the selected men from Division No. 3 which left for Camp Lee on the third instant arrived here safely and all feeling fine. We reached here at 6:30 the following morning and was well taken care of throughout the entire trip and will add that we are receiving the best of care since here.
All the men are in the same branch of service, which is the Motor section of Ammunition Trains, and are all in Companies 1, 2, 3, and 4, which have adjoining Barracks.
The rations are very good and all have plenty to eat. We have had considerable drill work and the men are fast getting into shape for the bigger work later on.
You would surely enjoy a visit here as this is a wonderful camp and everything moves along with the utmost precision. 200 men are fed in one-half hour in our barracks, and earlier in the life of the camp they erected a barracks complete to take

By telephone the United Press reached Col. Roosevelt at Stamford, Conn., where he is taking physical culture exercises. He laughingly declared "Do not ask me nonsensical questions."

Care of this amount of men at an average of one every 60 minutes.

The days are warm and nights are quite cool. We are called at 5:45 A. M. and have breakfast at 6:30, work beginning at 7:30. A few men are troubled with colds at present, but will soon get straightened out after they are fully acclimated.

At present I am acting 1st Sergeant of my Company and expect to receive my warrant in a few days. This position takes a great deal of my time and to date have been unable to get around the camp to see any of our friends but hope to before long.

The lunches handed us by the Red Cross were greatly appreciated and fully enjoyed by all as it is a long ride down here and men get hungry. I wish you would thank these people for the interest they have taken in providing for the men coming here and also wish to thank you, in behalf of all the men in our quota, for your very kind financial assistance at the time of our departure and trust that I may see you before many months and personally explain the life here.

My very best regards to Mr. Rumberger and trust you are both enjoying the best of health.
Yours very respectfully,
WILLIAM B. AURANDT

Ward Liner Antilla After Conveying
Soldiers To France Meets Disaster
At Hands Of German Pirates

SEVENTY MEN SUPPOSED TO HAVE DIED

By Carl D. Groat
Germany is centering a large part of attention of her U-boats in "getting" American transports. That conviction was borne in on Navy men today after the first torpedoing of an American transport—the Antilla, which was sunk with a loss of seventy lives. That the U-boat got the Morgan liner, however, was largely a matter of luck. No one saw that submarine or the torpedo. The American people will now know what may be expected from the Germans. The utmost precaution was taken by the transport which was under convoy, and it was only luck on the part of the submarine. The U-boat was probably submerged and the commander was greatly surprised when he heard the approach of a steamer and was able to get the range and deliver the torpedo square. If the periscope of the submarine had been visible the convoy would have surely seen it. A point which authorities today dwell upon was that the disaster had no military significance. The fact that American military men lost their lives may serve to incite the war spirit here. If it does this, then the lives of the soldiers and sailors which were lost will not have been sacrificed in vain, it was held. The Navy Department points out that an occurrence like this will happen once in a while but with the convoy and armament the disasters will be greatly reduced.

DEERTER BOUNDED UP

Val Pavilek, of Curwensville, who was notified of his liability under the draft, was examined and bound to appear here September 18th to leave with the second contingent which left on the 19th but failed to appear, was arrested by Chief of Police Clark of Curwensville yesterday and lodged in the Clearfield jail this morning.

Pavilek left Curwensville the day before he should have reported to Clearfield and went to Pittsburgh. excuse is that he went there to see a sick brother. He returned to Curwensville Thursday evening and was picked up by the Chief of Police who was on the lookout for him.

This is the man who has been accused of being a spy. It has been proven that he was in the Austrian army for three and a half years. He speaks good English and during the past several months has done a large amount of traveling about the country on a motor cycle always alone.

He will be delivered to Army headquarters at Philadelphia within a few days where he will be tried by military court martial for desertion.

TELL HIM ABOUT IT

(By United Press)
Washington, Oct. 20.—American aviators on the French front have over German lines today and bombarded with Liberty Loan posters the enemy troops while flyers from training camps bombarded the principal cities with Liberty Loan posters.

The Lafayette Esquadrille dropped Liberty Loan posters on Germany. Many of the posters had the President's famous phrase for a heading, "Make the world safe for Democracy."

Fourteen thousand posters were sent to Pershing. The posters sent were some of the first printed.

WE LANDED A FEW

"Bud" Lee, Earl McHenry, Jack Eadie and the writer herself, combed the thickets at the head of Trout Run this morning early and managed to slay four fine pheasants, while forty odd birds had no trouble at all in escaping the bombardment. We arrived home for dinner.

It snowed all forenoon on the mountain trail.

EDITORIAL
PATRIOTISM AND THE MINER

In an exchange we notice an article with the headline, "Lack of Patriotism Among Miners Matter of National Importance," implying that the miners are not patriotic. The basis of this statement is the action of the County Public Safety Committee with regard to idlers and non-workers on account of booze. Of course it must be conceded that the miner who does not work because he is or has been drinking is unpatriotic because in time of war he, as well as every other citizen of this nation, should keep himself fit for work every day but the fact remains that every industry, not alone mining, is suffering from lack of help because workers are loafing in bar rooms instead of turning out materials. The action of the Committee must not be construed as a criticism of any particular class of labor and what they plainly struck at was the contributing cause of the idleness—booze.

The patriotism of the miner is to a large measure above reproach. He cannot be censured because he is fighting for more money all the time because that is exactly what every other man in this country is doing. He can be criticized only when he ceases to work and when, on some minor pretext he throws a mine idle for a day or more at a time.

There have been instances recently where the miners were unfair to their employers and to the best interests of their country. It has several times been reported to us that miners have failed to start work in the morning because there were no cars under the tippie even though the train bearing cars for the days work was in sight. We choose to believe that this has been due to bad leadership among the miners locally or possibly because the miners, as a body, have not been acquainted with the urgent needs of their country in the way of fuel.

The best indication we have of the patriotism of the miner was the way he came across in the last Liberty Loan Campaign. We do not believe that any other class of laborers can exceed their performance on that occasion.

In this Liberty Bond campaign we believe the miner will be there with the goods. We will be disappointed if he is not. He is making good money. His heart is in the right place. We know how he takes care of his "buddy" when sickness or accident overtakes him.

At this time when so many of his "buddies" have answered the call of Uncle Sam we feel safe in predicting that he will handsomely take care of those fellows in a Liberty Bond manner before the campaign closes on October 27th.

LESSON FOR OCTOBER 21

THE TEMPLE REBUILT AND DEDICATED.

LESSON TEXT—Ezra 3:8-13; 6:14-18.
GOLDEN TEXT—Enter into his gates with thanksgiving, and into his courts with praise.—Psalms 100:4.

The remnant which returned had now become settled in their new homes. As it would be a considerable time before the temple could be rebuilt, arrangement was made for the religious life as early as possible, as religion was the very heart of the nation's life. They first set up the altar of the God of Israel (3:1-3) and offered burnt offerings thereon. They next revived the annual festivals (3:4-7) which had a powerful, unifying influence upon them.

I. The Appointment of Officers to Set Forward the Work of the Lord's House (v. 8, 9). Overseers were needed to direct this great work. Rubbing needed to be cleared away so the building operations could begin; timber needed to be cut in the Lebanon forests and floated down to Joppa; stones needed to be cut from the quarries; intelligent and consecrated men were needed to direct this work, as it was needful that it be done with the utmost expedition. The Lord's house demands the most systematic adjustment of its labors. Mere zeal will not make up for lack of intelligence.

II. The Foundation of the Temple Laid (3:10-13). This was done amid great rejoicing. The consciousness that the Lord's house was taking shape, even though the mere foundations could be seen, provoked great enthusiasm on the part of the people. Musicians were appointed to furnish music while the work was being done. Under the influence of music men will do better work, armies will march and fight better when bands are playing. While there was great joy, there was also, mingled sorrow. This was on the part of the elders who had seen the former temple. The meanness of the present temple in comparison with Solomon's temple caused their praise to be drowned with their sorrow. These people belonged to that class who think that nothing now is so good as in the former days. So completely were these voices commingled that the people could not discern the one from the other.

III. The Building of the Temple Delayed by Opposition. (Chapters 4 and 5). For a time matters went smoothly with them, but as soon as the work had taken such shape as to show that there was some prospect of success, the half-heathen Samaritans began to oppose them. No vital work of God will be allowed to go on without opposition. Satan resents and bitterly opposes all inroads upon his kingdom. These Samaritans sought to frustrate this work of God by:

(1) An Alliance With the Jews (4:2, 3). They wanted to bring the work in harmony with their own religious practices, as God's pure worship would be a constant rebuke to them. This is ever the way of the world, to seek to effect a compromise with God's children; but God's call is separation. "Come out from among them" (2 Cor. 6:14-18). Nothing so weakens God's cause as worldly alliance and compromise. There is but one answer to be given to such an offer of compromise. "Ye have nothing to do with us in building a house unto our God. We are in the world, but not of the world."

(2) Weakening the Hands of the People (4:4). Doubtless this included the withdrawal of supplies, the spreading of dissension among the workmen, and the employment of counselors against them.

(3) Letters of Accusation to the Persian King (4:6, 7). So severe was this opposition that the building was delayed for a term of years. These counselors succeeded in creating doubt as to whether Cyrus had ever issued a decree for their return. This wicked opposition resulted in the undoing of the opposers, for search was made and a copy was found. Darius confirmed this by his own decree, and directed that aid be given from the royal taxes so that the house of God might be built.

IV. The Temple Completed and Dedicated (6:14-18). The Prophets Haggai and Zechariah now appear, and by warnings, exhortations and entreaties stir up the people so that the work goes forward to a successful completion. Without their aid probably the work would never have been completed. Human nature at times needs to be cheered and urged forward. These prophets did not themselves work in the building of the walls, yet their work was of even greater importance. It is generally found that this is so with the religious leaders today. The words of cheer and encouragement of the Christian minister are needed daily for those who labor in the building of the Lord's house. Were it not for them many would give up the struggle. When the building was finished it was dedicated to God with great joy. This was possible because they had built and finished their task according to the commandment of the God of Israel. The service of dedication was much after the order of that of Solomon's temple, only on a less magnificent scale.

MAKE MORE DYE THAN WE CAN USE
Washington, Oct. 19—America's latest infant industry—dye stuff—calls lustily for more trade in foreign lands the Commerce department announced today. The American dye industry big enough to supply virtually all American trade is now exporting on a large scale. When war broke out in 1914 our dye supply was cut off from Germany, and the United States was apparently against insurmountable difficulties. Many of the German dyestuff secrets are now known and many substitutes have been made.

Mr. Miner!

Your "Buddy" has left the face, his carbide lamp is rusting in his house and you no longer hear his cheerful "hello" as he comes up the Heading in the morning.

Your "Buddy" left with your best wishes. When he said "Good Bye" you clasped his hand and wished him well.

When he left he thought that you would see him through.

HE IS CALLING ON YOU NOW

To make good your word. Are you going to disappoint him.

From Pershing's Boys and the Training Camps the call comes: "We want more guns, more ammunition and more food." Give them a lift.

Stand by your "Buddy". Help him out. Give him tools, a full pail and see how soon he will put in a shot that will blast the Kaiser's hope of owning the world.

Bore a hole in your Pay Envelope. Your "Buddy" will fire the Shot.

Wesley Norris Talks to Voters

To the Voters of Clearfield County.
Gentlemen:—

As a Candidate the second time for
the office of Sheriff of Clearfield Coun-
ty, having incurred much expense
and considering my advanced age and
that this is my last chance for elec-
tion, I appeal most earnestly and
anxiously for your votes at the com-
ing November election. I feel that
aside from these claims I deserve
your favorable consideration because
as a common citizen I have always
favored the laboring classes of which
I am one, and it elected I stand pledg-
ed to favor every laboring man to the
utmost of my ability, and without
asking his politics. I have always
tried to be active in helping to build
up the town and county. I am a na-
tive of Pike township and belong to
a large family of heavy tax payers in
Clearfield County and our connection
is one of the largest in the County.

I feel that as I secured my nomi-
nation honorably and fairly, and
largely upon my claims as the second
highest man four years ago, I can
honestly appeal to the voters to help
me now as this is my last chance.
I plead with every voter who knows
me to use their utmost influence to
get every friendly voter to the polls
on election day and to use your best
influence in my behalf with all the
voters in Clearfield County.

Yours very truly,
W. F. NORRIS.

For Burning Eczema

Greasy salves and ointments should not
be applied if good clear skin is wanted.
From any druggist for 35c, or \$1.00 for
extra large size, get a bottle of zemo.
When applied as directed it effectively
removes eczema, quickly stops itching, and
heals skin troubles, also sores, burns,
wounds and chafing. It penetrates, cleanses
and soothes. Zemo is a clean, dependable
and inexpensive, penetrating, antiseptic
liquid. Try it, as we believe nothing you
have ever used as effective and satisfying.

Don't Try To Cover your home, your business, your ALL, with an under-sized, out-grown policy

Your household goods, your home
and business buildings, your fix-
tures, merchandise and machinery
—if burned up today—would cost
infinitely more to replace than
what you originally paid.
Unless you have revalued your
property according to present high
prices—unless you have taken out
more fire insurance to cover its in-
creased value—a fire today might
find you but partly protected—as
shown in the illustration above.

With over 213 fire-alarms a year
in Clearfield, your property
stands one chance in seven to suf-
fer a loss. Your turn may be the
next.
To carry sufficient fire insurance
costs but little more than you now
pay. In the last two years fire in-
surance rates in Clearfield County
have decreased.
Telephone, call upon, write or send
the coupon to your insurance
agent now. His address is on your
policy. Don't gamble on fire.
